Summary

Full-Stack Developer with strong skills in JavaScript, React.js, Node.js, and MongoDB, along with a solid foundation in Python, SQL, and data analysis. Experienced in building real-world projects including web applications, games, and AI-integrated systems. Capable of analyzing data, developing scalable solutions, and delivering user-focused applications. Seeking opportunities to contribute to impactful and fast-paced development environments.

Skills

Programming & Querying: SQL, Python, Java, Javascript

Web development skills: React.js, Node.js, Django, Bootstrap, Tailwind CSS, Material UI

Tools & Others: Git, GitHub

Experience

Full Stack Python Developer Intern

October 2024 – February 2025

Full Stack Python Intern (Remote)

- Enhanced and maintained full-stack web applications using Python, HTML, CSS, and JavaScript, focusing on responsive UI and efficient backend logic.
- Built and integrated backend functionalities using Django/Flask, including user authentication, form handling, and database operations.
- Worked with databases such as MongoDB/MySQL to design schemas, perform CRUD operations, and manage application data effectively.
- Collaborated on feature development and debugging, improving application performance and user experience across multiple modules.

Projects

Online Medicine Store | *Django, Python, HTML, CSS, JavaScript, MongoDB/MySQL*

2025

- Engineered a full-stack web application for online medicine ordering with user authentication, product browsing, and order placement features.
- Implemented advanced features including doctor appointment system, AI symptom checker, and interactive chatbot for enhanced user experience.
- Designed and managed backend logic using Django, handling database operations, user data, and dynamic content rendering.
- Built responsive frontend interfaces to ensure smooth navigation and usability across devices.

Resume Builder App | *MongoDB, Express.js, React.js, Node.js (MERN)*

2025

- Built a full-stack resume builder application allowing users to create, edit, and download professional resumes dynamically.
- Integrated RESTful APIs using Node.js and Express.js for handling user data and resume content.
- Designed interactive UI using React.js for real-time preview and seamless user experience.
- Integrated MongoDB for efficient storage and retrieval of user information and resume templates.

Awards & Certifications

- **NPTEL Certification in Internet of Things (IoT):** Gained knowledge of IoT architecture, sensors, communication protocols, and real-world applications.
- **NPTEL Certification in Cloud Computing:** Learned core concepts including cloud architecture, virtualization, deployment models, and cloud services.

Education

Master of Computer Application

Graduated: 2025

Nalanda Institute Of Technology, Bhubaneswar

CGPA: 8.6 / 10
